

Rick Cecconi – Communications Co-Ordination

Born and raised in South Porcupine, lived very close to Porcupine Lake and spent many days fishing there with friends.

Many of my friends lived in Porcupine, in the winter I would snow mobile across the lake to visit my friends and then girlfriend Debbie. In 1976 got married to Debbie and make the big move to Timmins.

In 2007 Debbie and I started up TimminsGetClean, we were fed up with the huge amounts of litter in the city and decided to do something about it.

We organized city wide litter cleanups, with the help of the city and volunteers.

We shut down TimminsGetClean in the fall of 2010 but in those 4 short years volunteers picked up 16 metric tons of litter from the city and a lot of it was recycled.

I'm definitely concerned about the Porcupine Lake/River watershed. Now that I'm retired there is no better way to volunteer some of my free time with Friends of The Porcupine River Watershed.
